Water

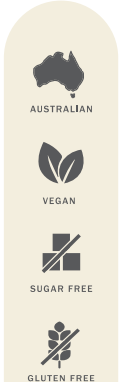

belokawater.com.au

Beloka’s balanced, mineral-rich water is sourced from the eastern border of the unspoilt Kosciuszko National Park.

This undisturbed spring allows us to bring you water that is certified as being ‘Superior’ by the Fine Waters of the World, an official testimony to our waters’ purity. Being filtered through 500 million year-old geological strata in the Australian Alps results in a pure, full flavour that is perfect both on its own or to complement any menu.

Naturally Byron. Filtered by Nature in the pristine mountains beyond the beach.

Filtered by nature in the mountains beyond the beach is where you'll find our pristine source. The area is renowned for the imposing silhouette of Mount Warning; an ancient volcano overlooking the stunning coastline and beaches of Byron Bay, and the first place to see the sunrise on mainland Australia. In this setting, hundreds of feet below the rainforest, lies the Mount Warning Mineral Water source – a vast confined aquifer that has remained to this day, pure and protected. Our sparkling water is gently effervescent, whilst our perfectly still water is naturally alkaline.

yaruwater.com

Yaru is a social enterprise that tells an important cultural story, whilst creating better health outcomes for Indigenous communities via the Yaru Foundation.

Through sales of Yaru Water and vital donations, we are able to establish projects that lead to health improvements, cultural awareness, and sustainable outcomes. Yaru is Australia’s first Indigenous water company and was established in 2011 through a partnership between the Martin family and Bundjalung descendants of Northern NSW. Since Yaru began, we have been proudly Supply Nation Certified. Yaru is a proud leader and change-maker. Our ambition is to inspire the procurement landscape and encourage similar business models that create positive social change, and bring indigenous culture to the forefront of Australia.

Enhance your moments.

For those who enjoy the finer things in life, San Pellegrino is the only choice when it comes to sparkling mineral water. Unsurpassed quality can be enjoyed in every bottle of Italy's iconic mineral water, with its tingling freshness, fine bubbles and subtle mineral aromas.

S.Pellegrino's premium green glass bottle, with its "Vichy" silhouette, boasts an elegant shape. Traditional but timeless, S.Pellegrino's premium glass bottles are used in the best restaurants, hotels and café around the world.

S.Pellegrino PET bottles and sleek can are designed to be enjoyed at home and on the go, perfect to refresh you and bring a little sparkle to your day, anywhere you go. They're perfect for turning any fine food moment – from an al fresco picnic to a gathering on the beach – into a special occasion.

au.antipodes.co.nz

First bottled water company in the world to be Carbon Zero, leaving no carbon footprint from source to table

ANTIPODES IS CARBON ZERO CERTIFIED Every bottle of Antipodes sold anywhere in the world is carbon neutral to the table and leaves behind absolutely no carbon footprint. Antipodes was one of the first 100 companies and the only water company in the world to be recognised by the UN for our carbon zero stance and wetlands restoration, being invited to be a founding member of the UN Carbon Neutral network.

Examples of how what we do to achieve our CarboNZero status:

- Only bottle to order, therefore not stripping our precious natural resource and keeping production emissions down
- Only renewable energy sources used at the plant
- Recycled paper packaging
- Bottles made from recycled glass

Antipodes does not dominate the table with height or strongly coloured glass. The heroes of the occasion should be the wine and food, not the water bottle.

- Its sole purposes are to hydrate and refresh, whilst cleansing the palate
- Antipodes has a very low minerality. Waters with a high mineral content can interfere with delicate flavours of food or wine
- Antipodes is so pure and clean that no chemical processing or sterilisation is required
- There are very few artesian water sources around the world where you can drink the water straight from the ground, and Antipodes is one of them.

nudeherbs.com

Beverages from real herbs and flowers

NudeHerbs is a pioneering Australian company specializing in crafting beverages from real herbs and flowers, setting itself apart from the majority of other brands that produce herbal drinks using herbal extracts rather than real herbs and flowers. Herbal extracts are typically created by immersing the herbs in organic solvents, primarily alcohol, and then straining out the solid herb material, leaving behind a concentrated liquid known as herbal extract.

Americo Tognetti "The Acai Guy"

It was back in 2001 on a business trip when entrepreneur, avid surfer and founder of Amazon Power, Americo Tognetti realised the distinct lack of Acai and Acai products in the Australian market. Americo saw the passion Australian's had for healthy living and saw a perfect fit for the Acai Berry found in his home country of Brazil.

Fresh Milk

hunterbelledairy.com

**Hunter milk and Hunter families making Hunter Belle products for locals to love!
Please Enjoy this Milk from our family to yours.**

Hunter Belle Dairy Co is owned and managed by the Chesworth Family in the Upper Hunter Valley of NSW. Headed by husband-and-wife duo Jason and Annie Chesworth, their small team at Scone. For over 100 years the Chesworth family have been milking cows along the Hunter River in NSW.

High quality Brown Swiss cows' milk is used exclusively and sourced fresh from a local family at Singleton. The milk is delivered direct to our factory, and we pasteurise the milk.

Brown Swiss cows are a dairy breed developed in the Swiss Alps that was used specifically for cheese making as the milk is creamier and more flavoursome. The Brown Swiss breed is renowned for its docile temperament, strength, and heat tolerance along with its high volumes of high protein milk.
